

Declaration of the corporate governance application

The set of principles followed

Creating values for shareholders, also through the Company's transparency, is one of Enea Group's priorities. Having that in mind, the Management Board of Enea SA represents that in 2016 the Company applied the corporate governance rules being the Attachment to the Resolution No. 26/1413/2015 of the Supervisory Board of the Warsaw Stock Exchange of 13 October 2015, titled "Best Practices of WSE Listed Companies 2016,, (BPLC, corporate governance), published on WSE website under https://www.gpw.pl/regulations_best_practices .

Waived rules and recommendations for corporate governance

Enea SA's Management Board's intention is to apply all the principles of the corporate governance. Due to the fact however, that some principles may pose the necessity to incur excessive burdens by the Company which could exceed potential benefits resulting from market needs, in 2017 the Company waived the application of some principles and recommendations of the corporate governance indicated below.

I. Management Board and Supervisory Board

II.Z.3. At least two supervisory board members meet the independence criteria referred to in rule II.Z.4.

The Company's comment: The Company would like to explain that pursuant to Enea SA's Statute the independence criteria should be met by at least one member of the Supervisory Board. Hence, the Company's Statute does not secure the compliance with the rule in question. However, the Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

II.Z.5. A supervisory board member submits to the remaining members of the supervisory board and to the company's management board a statement that he/she meets the criteria of independence set out in rule II.Z.4.

The Company's comment: The Company would like to explain that pursuant to the Company's Statute, an independent member of the Supervisory Board is obliged to make a written statement to the Company about meeting all the criteria of independence – together with an obligation to immediately inform the Company whenever he/she ceases to meet such criteria. However, the Statute of Enea SA does not provide for a duty to make such statements to the remaining members of the Supervisory Board. However, the Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

II.Z.7. As regards the tasks and operation of the committees operating in the supervisory board, the provisions of Annex I to the European Commission Recommendation referred to in rule II.Z.4 shall apply. In the case where the audit committee function is performed by the supervisory board, the above rules shall apply accordingly.

The Company's comment: The Company would like to explain that with respect to the tasks and operation of the committees operating in the Supervisory Board, it applies the provisions of Annex I to the European Commission Recommendation referred to in the rule under analysis, with a proviso that the Company's internal instruments do not require the majority of members of these committees to meet the independence criteria. The Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

II.Z.8. Chairman of the audit committee meets the independence criteria set out in rule II.Z.4.

The Company's comment: The Company would like to explain that pursuant to the Supervisory Board Regulations in effect at the Company, at least one member of the Audit Committee should be an independent member. However, the Company's internal documents do not stipulate that this requirements must be met by the chairperson of such committee. In the light of the provisions of the abovementioned Regulations, the committee members choose the chairperson from among themselves. The Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

IV. General Meeting and shareholder relations

IV. R.2. If this is justified due to the shareholding structure or due to the shareholders' expectations communicated to the company, as long as the company is able to ensure the technical infrastructure necessary for the efficient conducting of the general meeting with the use of electronic communication means, the company should enable its shareholders to participate in the general meeting with the use of such means, in particular through: 1) real-time transmission of the general meeting sessions, 2) two-way real-time communication where the shareholders can communicate in the course of the general meeting session while staying in a location other than the place of the general meeting session, 3) exercising, either personally or via a proxy, the voting rights at the general meeting.

The Company's comment: The Company would like to explain that the Company's Statute does not provide for the option to participate in the General Meeting via electronic communication means. Notwithstanding the above, the Company's Management Board generally has a positive approach to enabling the Company's shareholders in the future to participate in the General Meeting with the use of the means ensuring real-time remote transmission of data, on condition that applicable legal regulations are adopted.

IV.Z.2. If this is justified due to the company's shareholding structure, the company ensures the real-time transmission of the general meeting sessions available to the public.

The Company's comment: The Company would like to explain that currently does not provide real-time transmission of the general meeting sessions. However, the image and sound recording of the general meeting sessions is each time made and it is subsequently rendered available by the Company via the corporate website.

V. Conflict of interest and transactions with related entities

V.Z.5. Before the conclusion by the company of a significant agreement with a shareholder holding at least 5% of the total number of votes in the company or a related entity, the management board shall request the supervisory board to grant a consent for such transaction. Before granting such consent, the supervisory board shall conduct the assessment of the impact of such transaction on the company's interest. The above obligation shall not refer to conventional transactions concluded on an arm's length basis as part of the operating activity carried on by the company with member entities of the company's capital group. In the case where a decision on the conclusion by the company of a significant agreement with a related entity is made by the general meeting, the company, before making such decision, shall ensure for all shareholders the access to such information as may be necessary to conduct the assessment of the impact of such transaction on the company's interest. .

The Company's comment: The Company would like to explain that pursuant to Enea SA's Statute, the powers of the Supervisory Board include, without limitation, granting a consent for the conclusion of a significant agreement with a related entity, provided that in order to pass a binding resolution in this respect it is necessary that the majority of the Supervisory Board members meeting the independence criteria vote for passing such resolution. The terms "related entity" and "significant agreement" are defined pursuant to the provisions of the Regulation of the Minister of Finance on current and periodical information. However, the Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

VI. Remuneration

VI.R.1. The remuneration of members of the company's bodies and of the key managers should result from the remuneration policy adopted.

The Company's comment: The Company would like to explain that no remuneration policy has been adopted at Enea SA.

VI.R.2. The remuneration policy should be closely related to the company's strategy, its short- and long-term objectives, long-term interests, and results, and it should also take into account the solutions contributing to avoidance of discrimination on any grounds.

The Company's comment: The Company would like to explain that no remuneration policy has been adopted at Enea SA. The Management Board declares to strive to ensure that the Company's remunerating practice takes into account the circumstances mentioned in the content of the recommendation, as far as possible.

VI.R.3. . If the remuneration committee operates in the supervisory board, the scope of its operation shall be governed by rule II.Z.7.

The Company's comment: The Company would like to explain that with respect to the tasks and operation of the committees operating in the Supervisory Board, it applies the provisions of Annex I to the European Commission Recommendation referred to in the rule under analysis, with a proviso that the Company's internal instruments do not require the majority of members of these committees to meet the independence criteria. The Management Board declares that it considers the circumstances mentioned in the content of this rule as good corporate practice. Therefore, the Management Board declares that it may request the Company's competent bodies to consider making adequate changes to the Company's internal instruments with an adequate recommendation.

Description of the key features of the issuer's internal control and risk management systems in relations to the process of preparing consolidated financial statements

Principles and procedures of preparing financial statements are in particular regulated by the International Financial Reporting Standards, Act on accounting and internal procedures functioning in Enea SA. Establishment of systems of internal control and risk management as regards the process of preparation of consolidated financial statements aims particularly at guaranteeing the completeness and correctness of financial information included in financial statements and interim reports.

The Management Board of Enea SA is responsible for the internal control system in Enea Group and its effectiveness in the process of drawing up financial statements and periodic reports. The task of an effective internal control system in financial reporting is to ensure that the financial information set out in financial statements and periodic reports is complete and correct.

Financial statements and periodic reports and monthly management and operating reporting applied by Enea SA are based on data derived from the financial and bookkeeping system of the Company. After all the predetermined processes of closing the accounts books at the end of each month have been carried out, detailed management reports on financial and operational matters are drawn up. Those reports are drawn up by the Control Department, with the participation of middle and senior managers from individual organisational units. In relations to the completed reporting periods, not only financial results of the Company are subject to a detailed analysis, but also particular business areas.

The Company also carries out annual reviews of business and financial strategies and plans. Middle and senior management personnel are particularly engaged in the process of detailed planning and budgeting, which covers all the areas of Enea Group's operations. The Company's Board adopts the material and financial plan prepared by the Controlling Department, and the Supervisory Board approves that plan. During the year, the Company's Board supervises the realisation of goals specified in the approved material and financial plan. The management cockpit developed by the Controlling Department constitutes a valuable source of information for the Supervisory Board on the current financial situation, environment and the level of realisation of goals in the critical areas.

The Company applies coherent accounting principles and presents financial data in financial statements, periodic financial reports and other reports disclosed to the shareholders.

Enea Group regularly assesses the quality of its internal control and risk management systems with regard to the process of drawing up financial statements. On the basis of an assessment, the Management Board of Enea SA confirms that as at 31 December 2017 there were no irregularities that could significantly affect the effectiveness of internal control as it relates to financial reporting.

As part of the risk management process related to the procedure of preparing financial statements, one of the basic elements of the external control is verification of the financial statements by an independent auditor. The tasks of the auditor include in particular: a review of the mid-year financial statements and an audit of the non-consolidated and consolidated annual financial statements. The independent auditor is selected by the Supervisory Board. Once the auditor has completed auditing the financial statements, they are sent to the members of the Company's Supervisory Board, which assesses the non-consolidated and consolidated financial statements with regard to their compliance with the accounts book, documents and the factual status. Under the provisions of the Accountancy Act, the members of the Management Board

and the Supervisory Board are obliged to ensure that the financial statements and the report on operations fulfil the requirements set out in that act.

The internal audit function, performed by the Audit Management Division is an important element of the internal control system. The internal audit in Enea Group is independent, and accountable to the Audit Committee acting as part of the Supervisory Board. The basic tasks of the internal audit include e.g. the audit and assessment of the control mechanism processes in Enea Group, supporting the internal control system effectiveness, risk management and Compliance system, through their independent and objective assessment and recommendation of improvements within the corporate governance and monitoring.
